Accuride Introduces OEM-Quality Chrome Wheel Accessories Featuring Innovative Designs and Enhanced Durability

EVANSVILLE, Ind. – March 4, 2010 –Accuride Corporation (OTCBB: ACUZ) recently debuted a line of OEM-quality chrome wheel accessories, consisting of ABS chrome front and rear wheel hub and nut covers. Designed to fit most class 7 and 8 trucks, trailers, and recreational vehicles, the accessories feature innovative designs and enhanced durability.

“Unlike competing product, Accuride’s wheel accessories are manufactured exclusively from automotive grade polymers. This material enhances heat resistance, increases durability, offers a long-lasting shine, and allows us to offer an industry-leading two year warranty,” said Rick Schomer, Accuride’s Senior Vice President of Marketing and Sales.

Available in three styles including a blank center, Accuride logo center, or Chrome Shop Mafia logo center, the wheel caps are 50 percent larger than similar products.

“With 200 percent more chrome plating surface, drivers will easily be able to achieve a bold look,” added Schomer. “However, looks and durability aren’t the only innovative features. We designed the covers so that the center cap is removable, allowing for DOT inspection without removing the entire cover. And, to protect the driver’s investment, the accessories are based on a unique theft deterrent design.”
